

AMANI SHEMA

Java Backend Developer | Software Engineering Student

amanishema90@gmail.com

Kigali, Rwanda

AUCA — Final Year

PROFILE

Motivated software engineering student and Backend developer with hands on experience building Java-based backend systems and web applications. Passionate about clean architecture, object-oriented design, and building technology solutions that solve real world problems. Seeking to apply and accelerate my skills through intensive mentorship and international client project exposure at AmaliTech.

TECHNICAL SKILLS

Languages	Java (primary) · JavaScript · HTML · CSS · SQL
Backend	Spring Boot, OOP
Frontend	Vanilla JavaScript, CSS, Responsive design, Figma
Databases	MySQL, SQL queries
Tools & VCS	Git, GitHub, VS Code, IntelliJ IDEA
Concepts	OOP design patterns

PROJECTS

RentBridge — Rental Housing Platform — *Spring Boot · PostgreSQL · React.js · Kotlin*

- ▶ Designed and architected a full rental housing platform targeting low- and middle-income renters in Kigali, Rwanda.
- ▶ Planned backend with Spring Boot REST APIs, PostgreSQL database, and a Kotlin/Jetpack Compose Android client.
- ▶ Developed a freemium business model, digital rental contract feature, and a field operator listing bounty system.
- ▶ Produced a comprehensive business plan submitted to the TEF Connect Aguka Programme (\$3,000 grant competition).

Multi-Domain Java OOP System — *Java · OOP · Collections · File I/O*

- ▶ Built a multi-module Java system covering construction site management, hotel service operations, and traffic fine management.
- ▶ Applied core OOP principles — encapsulation, inheritance, polymorphism, and abstraction — across all three domains.
- ▶ Implemented data persistence using file I/O and Java Collections (ArrayList, HashMap) for runtime state management.

Personal Portfolio Website — *HTML · CSS · Vanilla JavaScript · Web3Forms · Vercel*

- ▶ Built and deployed a responsive portfolio site from scratch with glassmorphism UI, scroll animations, and a Java code hero card.
- ▶ Integrated Web3Forms API for contact form submissions and deployed to Vercel via GitHub CI/CD pipeline.
- ▶ Achieved clean Lighthouse scores and cross-browser compatibility with zero frameworks.

EDUCATION

BSc Software Engineering · [Adventist University of Central Africa \(AUCA\)](#) 2023 – Present | Kigali, Rwanda

- ▶ Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Computer Networks.

EXPERIENCE

Freelance Web Developer · [Fiverr \(Self-Employed\)](#) 2025 – Present | Remote

- ▶ Delivering custom web development services to international clients via Fiverr.
- ▶ Managing end-to-end project delivery: requirements gathering, development, testing, and client communication.
- ▶ Building a portfolio of documented client projects to demonstrate professional software development experience.

Field Service Manager · [Cargo & Logistics](#) 2024 – 2025 | Kigali, Rwanda

- ▶ Managed cargo offloading operations and coordinated field teams across multiple daily shifts.
- ▶ Produced structured operational reports, developing strong documentation and accountability practices.

PROFESSIONAL ATTRIBUTES

- ▶ Self-directed and accountable with minimal supervision
- ▶ Growth mindset — committed to continuous improvement
- ▶ Comfortable working in multicultural, fast-paced environments
- ▶ Strong written and verbal communication in English
